FOOT CARE

Skin Lube® A

Helps prevent blisters in friction prone areas. Application lasts longer than similar products due to higher melting point.

- 192522** 2.75 oz. Tube
- 192538** 1 lb. Jar
- 192540** 5 lb. Jar
- 192542** 25 lb. Jar

Blister Derm™ B

Helps protect athletes from blisters and hot spots. Glycerin-based gel is thin enough for comfort and thick enough for protection. Won't dry out, so one pad outlasts the blister. 3" circle.

- 030905** Package of 20

Blister Foam C

Cushioned, adhesive foam patch used to prevent blister causing friction. Conforms easily to any skin surface. Stays on when wet.

BloodSTOP® D

Works to stop bleeding up to four times faster than other methods while its 100 percent natural cellulose content actually promotes faster healing of the wound. Tensile strength of dressing is able to stabilize most minor lacerations and wounds effectively. Product is water soluble so it is easy to remove without running the risk of reopening the wound. BloodSTOP® is hypoallergenic, biologically inert and environmentally friendly. Sterile packaging is easy to open but still allows for a long shelf life.

Women's Crossover Sliding Shorts B

Cramer's line of women's sliding shorts features a low-rise design with a 1.5-inch waistband, 5-inch inseam and thinly padded liner. They produce the ideal muscle support necessary for aggressive play and are available in two pattern options with either 1/8-inch foam or two layers of polyester cloth padding for protection of the hips and outer thighs. Both pad versions provide excellent abrasion prevention. Foam offers the best cushioning at impact, while the two ply polyester fabric offers a more tapered, feminine appearance.

Crossover style can be used both as a sliding short and active wear outer garment for pre and post-game activities.

Fabric: 85% Polyester/ 15% Spandex, anti-microbial and moisture-wicking fabric

Sizes: XS-2XL

Colors: Lime Green/Black, Black/Pink, Pink/Black, White/White (1383 Only)
